Findings / Documentation

Date	Topic	Author	Description	Comments
07/05	Product Backlog	DH	It was quite difficult to understand how detailed the stories should be in order to be able to distribute it to the developers accordingly (and to make sure they are not working on the same code at the same time).	
21/05	Retrospective	DH	Infrastructure was a bit difficult to manage in the beginning but there's already a lot done (even more than expected). The database is a bit of a trouble still so we're a bit behind in that part but we still have time to manage this.	
	Sickness during sprint 2	DH	As one of our developers was sick, there was not much done but we were able to implement the database including its structure.	

First Idea of how the Website could look like:

HSLU City Hotel

Welcome to HSLU City Hotel

The HSLU City Hotel, nestled in the vibrant heart of the city, offers a unique blend of comfort and style, making it an ideal choice for both business and leisure travellers. The hotel features a range of accommodations tailored to suit various preferences and budgets. As one of our special rooms, you can reserve the Toggweiler suite, the epitome of luxury and exclusivity, featuring a coding desk and sailoring details.

**Check Availability** | Check-In 📅 | Check-Out 📅 | Search for Rooms »

Standard Room

8 rooms available
Price per night: 140.- CHF

Book room

Deluxe Suite

1 large double bed
Lake view
2 rooms available
Price per night: 360.- CHF

Book room

Room pages with additional information and pictures (two stories out of "Add room descriptions")
Add Documentation to the code

Wednesday, 5th of June, 13:00 -> quick call, max 30 minutes
Wednesday, 12th of June, 14:00 -> open end (prepare presentation and finish everything

Room description is right now hard coded into the website and nice-to-have would be to actually include it in the database and change the code on the website.
